On behalf of the Special Care Dentistry Association, I hope you will join us March 26-28, 2010 for the **22nd Annual Meeting on Special Care Dentistry**, taking place at the Swissôtel Chicago. After a four year hiatus from the windy city, welcome back to Chicago!

This meeting provides an excellent venue to connect with others who share our passion for treating patients with special needs, to interact with the brightest minds in our field, and to explore new product offerings from the industry's leading vendors in our Exhibit Hall.

In today's challenging times, it is imperative to stay connected and grow your skill set *and* professional network. I encourage you to attend the annual meeting to ensure your professional growth, the growth of SCDA and its mission of improving the oral health of people with special needs.

I want to thank you for your continued loyalty and support of SCDA and look forward to seeing you in Chicago!

Judith Messura, DMD, FAAHD, DABSCD

Keynote Presentation: The Power of Words

Wadell Blackwell

Many people fail to understand the power of a word until that word is applied to their own lives. Learn how the use of words can, and should, be used to make difficult situations better.

ADA/AGD 1 hour

9:00 a.m. – 9:15 a.m.

Break

9:15 a.m. – 10:45 a.m.

Oops! (Part 1 of 2)

Randy Huffines, DDS, FASGD, FAAHD, DABSCD

The physicist Niels Bohr once said, "An expert is a person who has made all the mistakes that can be made in a very narrow field." If that is true, Dr. Huffines feels he is approaching expert status in removable prosthodontics! Learn how to avoid common "goofs" through personal examples and stories focused on the elderly and medically complex patient population.

ADA/AGD 1.5 hours

Pulmonary and Hepatic Diseases and Dentistry: A Review (Part 1 of 2)

Bart Johnson, DDS, MS, FAAHD, DABSCD

The knowledge and abilities of our medical colleagues is expanding exponentially and our dental patients are presenting them with increasingly complex histories. In order to make the best oral health decisions with our patients, we need to understand the intimate details of their medical status. Review the world of pulmonary and hepatic diseases and how they affect the provision of oral health care. Learn tips to work more closely with health care providers to make quality decisions for the patient's care.

ADA/AGD 1.5 hours

Maximizing Diagnostic Imaging

Eleonore Paunovich, DDS, MS, FASGD, DABSCD

Learn about dental imaging modalities available today, including intraoral and extraoral radiographs, digital imaging, tomography, sialography, computed tomography, magnetic resonance imaging, nuclear imaging and cone beam CT. Explore their indications and the features that can optimize diagnosis in patients with physical and functional limitations. Discuss recommendations for management of gagging reflex problems, localization problems and film/sensor placement problems.

ADA/AGD 1.5 hours

10:45 a.m. – 11:00 a.m.

Break

11:00 a.m. – 12:30 p.m.

Oops! (Part 2 of 2)

Randy Huffines, DDS, FASGD, FAAHD, DABSCD

No More Gobbledygook: A Workshop in Health Literacy

Nancy Dougherty, DMD, MPH, FADPD, DABSCD; Ruth Goldblatt, DMD, FAGD, FASGD, DABSCD; Maureen Romer, DDS, MPA, FADPD, DABSCD

Dive deep into the basic principles of health literacy via several different “hands-on” methods. Participate in group discussions focused on actual scenarios where health literacy has had a direct impact on outcomes.

ADA/AGD 2 hours

The Mind and the Mouth: Psychiatric Illness and Oral Health Considerations

David Clark, BSc, DDS, MSc, FAAOP, FRCDC

Psychiatric illness and its medical management carry significant risk for oral disease. The type, severity and stage of illness, in addition to the patient’s mood, motivation and personal perception of oral disease and lifestyle, all contribute to the oral manifestations of psychiatric diagnoses. Learn how mental health and oral health are intertwined and can significantly impact one another. Explore how each patient brings unique needs and priorities to the dental practice and how the dental professional must be mindful and flexible in dealing with these factors.

ADA/AGD 2 hours

Stop Defending and Start Offending S. Mutans

Brian Novy, DDS

The dentition of patients with special needs is ripe for dental caries. Explore preventive dentistry tactics beyond fluoride varnishes and open your eyes to the array of caries treatments available today.

Steven Gordon Memorial Lecture: What Works in Dentistry for Older Adults and Individuals with Special Needs: An Evidence-based Approach

Paul S. Farsai, DMD, MPH

Examine current evidence that focuses on the need for clinical care and policy trends to provide dental care for geriatrics and patients with special needs. Discuss how a collaborative program that unites State agency resources with a dental school’s residency program can satisfy the geriatrics and special needs clinical dentistry experiences for residents and pre-doctoral students. Learn how key – and occasionally disparate – stakeholder groups have been engaged to modify accreditation standards to include recognition, diagnosis, and treatment of the clinical needs of the geriatric and special needs populations as part of the required educational experiences in professional training.

ADA/AGD 1 hour

9:00 a.m. – 9:30 a.m.

Break in the Exhibit Hall

9:30 a.m. – 11:00 a.m.

The Special Needs-friendly Private Dental Practice

Robert Rada, DDS, MBA

Today, many dentists receive minimal training in treating patients with developmental disabilities. Discuss treatment locales from the dental office to the hospital operating room and learn more about special considerations in restorative care, periodontal care and maintaining good oral health.

ADA/AGD 1.5 hours

Novel Approach to Oral Care in Dependent Adults

Shirley Gutkowski, RDH, BSDH, FACE; Angie Stone, RDH, BS

Brushing teeth reduces or removes oral biofilm. At times, expecting nursing support staff to provide oral care by brushing and

flossing hasn’t been very successful. Learn how shifting biofilm reduction to science rather than manual labor can prove to be beneficial.

ADA/AGD 1.5 hours

9:30 a.m. – 5:45 p.m.

Anesthesia and Sedation-related Emergency and Airway Management

Marvin Leventer, DDS

Review sedation and anesthesia tactics including oral, inhalation, IV and IM for children and adults through case studies and practical application. Examine the management of sedation emergencies, monitoring and airway management.

ADA/AGD 6.75 hours

11:00 a.m. – 11:15 a.m.

Break

11:15 a.m. – 12:15 p.m.

Chlorhexidine Protocols: An Update for Patients with Special Needs

Erin Lacey-Spector, DDS

SCDA Annual Business Meeting

1:45 p.m. – 3:15 p.m.

Practice Without Pressure – A Model for Dental Care with Dignity and Respect

Deborah Jastreski; Karen Bashkow, RN

Discuss the benefits of replacing restraints with a new model of care that advocates for the individual, removes fear of procedures and fosters self-control and confidence in patients with disabilities. Explore how this change would enable patients to receive care with dignity and respect. Chart the advantages that advocacy offers the patient, professional and family member as part of the innovative practice without pressure model of care and training in the dental practice.

ADA/AGD 1.5 hours

The Impact of Joint Commission Accreditation on Your Dental Department

Jay R. Afrow, DMD, MHA

Learn about Joint Commission Accreditation, including the on-site survey process and the challenges this process creates for a dental department. Review survey activities and Joint Commission standards that specifically affect the delivery of dental care, and identify strategies and suggestions for compliance.

ADA/AGD 1.5 hours

3:15 p.m. – 3:30 p.m.

Break

3:30 p.m. – 6:00 p.m.

How to Design Case-based Seminars and an Update on CODA

Peggy Soeldner, MS, Ed; Stanley L. Brysh, DDS, FAAHD, DABSCD; Robert Arm, DDS, FAAHD, FADPD, DABSCD

Discuss CODA updates, including changes in postdoctoral standards, questions from programs with upcoming site visits, and possible changes in predoctoral standards. Examine MATCH Violation Management, AAHD Board management of MATCH violations and how a program director is part of the process. Learn how to develop case based seminars that can educate residents in patient care while potentially meeting CODA standards for accreditation.

ADA/AGD 1.5 hours

3:30 p.m. – 5:00 p.m.

Contemporary Dental Management of Patients with Strokes

Terrence J. Thines, DDS, MS, FAAHD, DABSCD

Examine challenges that patients bring to your practice. Review the latest issues and recommendations for dental management of the stroke patient.

The Older Patient with Cleft Palate: Prosthodontic Management and Future Trends

Samuel Zwetchkenbaum, DDS, MPH

Review the prosthodontic management of the older patient with a cleft palate, focusing on the use of the obturator to improve speech, swallowing and esthetics. Discuss the availability of use of improved surgical modalities, from osseointegrated implants to surgical modification of the velopharyngeal complex.

ADA/AGD 1.5 hours

How Does One Critically Evaluate or Review a Paper

Ronald Ettinger, BDS, MDS, DDSc, FASGD, DABSCD

Learn how to evaluate or review a paper by identifying the components of research and evaluating if it is scientifically valid and applicable for clinical decision making. Gain a solid understanding of the review process and leave with a guide for writing and submitting a manuscript for publication.

ADA/AGD 1.5 hours

Burning Mouth Syndrome (BMS) and Head and Neck Pain in Cancer Patients (HNC)

Joel Epstein, DMD, MSD, FRCD(C), FDS RCS(E)

Please visit www.SCDAonline.org for an updated abstract.

Oral Health in Health Care Reform

William Prentice

Get an insider's view from the ADA Senior Vice President of Government and Public Affairs, how oral health fared in federal health care reform legislation. Review federal legislative and regulatory issues affecting dental professionals and current and future patients during this thought provoking session.

ADA/AGD 2 hours

Using the SIG Device to Accurately Place Mini Dental Implants for Overdenture Retention

Harold Sussman, DDS, MSD

Explore the use of Mini Dental Implants, placed via flapless surgery, directly through gingival tissues, for retaining mandibular overdentures. Participate in a step by step documentation of this technique, using the SIG Device as an aid, along with a background of the armamentarium.

ADA/AGD 1.5 hours

10:00 a.m. – 11:30 a.m.

Oral Diseases and the Aging of HIV-Infected Adults from the AIDS Epidemic

Kishore Shetty, DDS, MS, FAAHD, FADPD, FASGD, DABSCD, MSNDRCS

Learn about the significant disparities that exist in the use of several dental services in HIV patients, similar to those seen in the general population. Discuss why the incidence of oral mucosal lesions is reduced in frequency as advent of highly active antiretroviral therapy (HAART) becomes effective.

ADA/AGD 1.5 hour
